

We share what works in
assessment

Knowledge • Content • Tools

WHO WE ARE / IS THIS FOR YOU ?

An international community for better assessment

Founded in 2019, FLIP+ is a non-profit association of public educational institutions and assessment experts - spanning Europe, Africa, America and beyond, and still growing.

22+

member institutions across five
continents.

FLIP+ is for you if you are a :

Ministry or Public Education Authority — shaping national assessment

Educator • Item Developer • Researcher — creating, adapting and studying assessment

Funder or Technology Partner - sustaining and extending the public good

THE FLIP + LIBRARY

Introducing the FLIP + Library

A shared, open-source library of real assessment items - created and piloted in real systems by real institutions, enriched with metadata and, over time, psychometric evidence.

Policymakers, developers and researchers can explore, learn from and build on assessment content from systems like their own - instead of starting from a blank page and repeating each other's mistakes.

**Built for educators.
Trusted by systems.
Shared for all.**

THE FLIP + COMMUNITY

A community that builds together

FLIP+ is a working community. Beyond the Library, members create and share concrete things together:

Working Groups - Maths · English · AI in Assessment · IT Development · Accessibility & Inclusion · Psychometrics · AI & Data

The FLIP+ Educational Hub - shared tools and services built by the community, from translation to format conversion

Webinars & the Annual Event - peer exchange, learning, and connection across systems

WHY BECOME A FLIP + MEMBER

By joining, your institution moves from the outside into the community that shapes and benefits from the Library and the Hub first.

Priority access: first to use and test new tools, services and Library content.

Influence: help define priorities, quality standards and AI principles through the Working Groups.

Capacity building: peer learning, webinars and the annual event; connect with systems facing the same challenges.

Recognition: be credited as a co-creator of a shared public good.

Knowledge shared is knowledge multiplied.

What membership asks in return: take part in at least one Working Group; contribute content, expertise or in-kind support where feasible; engage in governance so decisions reflect diverse systems.

Membership: institutional / individual - fees on our website.

COME AND BUILD WITH US

FLIP+ is in an active phase of growth. We are not selling a finished product - we are inviting institutions to help shape one.

① Join FLIP+

Become a member and gain early access to the Library.

② Explore the Library

Scan the QR code to see what we're building.

Joining FLIP+ means joining a community building - together - a trusted, shared space for real, piloted assessment.
